

Registration Expectations

A Guide for Participants

Registration is right around the corner! Here's what to expect:

Set up your account and create your participant's profile in advance*. *This will make for a speedier process and give you a better chance of getting your preferred session(s)!*

*Contact your organization for more information on where to sign up!

Once registration opens up, select your session(s) and any applicable add-ons, coupon codes, protection plan, donation, and confirm & pay.

After confirming payment at the final step of registration, a confirmation box will pop up with an itemized list of sessions with 3 possible headings:

- Registered
- Not Registered
- Added to Waitlist

Sessions and add-ons may fill, and are not guaranteed until purchase is complete!

IMPORTANT:

- You will not be charged for any sessions for which you are waitlisted, or for sessions that become unavailable during checkout.
- You will be charged for any successful registrations. Note that your final total may vary depending on session availability at the point of purchase.

Visit our [Register](#) support article for more information!
